Cal Land Title Announces New Marin County Office

Local Title Company Expands Service with new Greenbrae Office

(Greenbrae, CA – February 14, 2019) – Cal Land Title, a division of First American Title Insurance Company of Napa, said today that it will open a new Marin office on February 14 to serve Marin and West Sonoma counties. The office will be located at 300 Drakes Landing Road in Greenbrae.

Cal Land distinguishes itself from other title providers by offering policies from multiple insurers, licensed single professional points of contact for the escrow and documentation portions of transactions, and local expertise – all under one roof.

Jonny Karpuk, CEO of Cal Land Title and First American Title Insurance of Napa, stressed the company's expanding local footprint. "Part of what makes us different is that we are a locally owned and operated company, all of our work is done right here in the North Bay; and all real estate is local," said Karpuk. "It matters to buyers and sellers that they can talk to professionals who live and work locally rather than having this processing outsourced to a large national corporation."

"Our company has been providing North Bay buyers and sellers real peace of mind for over five decades," said Karpuk. "We're looking forward to bringing our signature white-glove service to Marin County and are proud to be putting the values and strength of our company, the good-will of our brand, and the professional excellence of our team to work here."
